

# Our Coon Rapids Center is Moving!

## Where are we moving?

We are moving to the Mounds View Center, a state-of-the-art facility, only about 4 miles from Coon Rapids. Clinic services will be moving to that Center, including general dentistry, pediatrics, special needs, IV sedation, and more.

## What if I have been a patient at Coon Rapids?

You don't need to do anything! Appointments prior to June 1, 2024 will remain at the Coon Rapids Center. Appointments after June 1 will be moved to the Mounds View Center. Appointments will stay on the same date and time, with the same provider. You will receive an updated confirmation of your appointment location.

## What about patients seen at mobile outreach sites?

Services to long-term care and assisted living facilities, Head Start centers, etc., will continue as normal. Support for mobile outreach services will be based out of our New Brighton Community Outreach Center (opening soon!).

## Why did Apple Tree decide to move?

We have increasing needs for all of our services, including accommodations for children and adults with special needs. Apple Tree needed to move to newer and more up-to-date facilities with capacity for future growth.

## What if I have more questions?

- Prior to May 31: call 763-784-7570.
- Beginning June 1: call 763-316-5400.
- Questions about the mobile outreach program should be directed to 763-784-7993.
